KUGOWN Objectives; 1955 Plans

REF: SGAW 7262, 1 November 1954

1. We are pleased to have reference on hand and realize the thought and the amount of time that has gone into SE-1 KUGOWN activities on your part. Furthermore, we are hopeful you will continue to keep corresponding on objectives, policy, and projects as well as continuing to provide helpful support by way of KMTORGET, cartoons, and texts for OBKREK and special leaflets as well as comments on our product.
2. We have carefully noted your request for an outline of our plans for 1955. This was completed prior to the holidays and will reach you in the near future after [ ] has coordinated it with the overall station plan. Because the dispatch was written within the framework of the [ ] plan, our paper referenced the Headquarters dispatch on overall plans rather than reference. We are hopeful you will find our outline in accord with your thinking and that we will receive your comments promptly.
3. By way of specific comment on reference the writer's views on accomplishments and deficiencies are in agreement with yours. We are all receptive to the future plans section on harrassment and expect to see your ideas for harrassment in an early dispatch. The same applies to passive resistance instructions. With respect to your comments on OBTEST and OBTUSE the writer feels that any measure of success OBTEST has had in building up the reputation of HTNEIGH is relatively small in comparison to the leaflet program and this point does not deserve emphasis. As Daytopher has pointed out in a recent OBTUSE report in some detail we are much more sanguine about article drops than Headquarters and hope future reactions will bear us out.
4. In conclusion, rest assured we will leave no stone unturned in an effort to improve content as well as every phase of our KUGOWN activity during the year. It is expected that a branch approach to the KUGOWN projects as explained by Daytopher in his review will result in considerably improved performance in 1955.
